

Gas Gauge; Series 9, 10, & 11

There is a fellow making reproduction, tank mounted, gas gauges in Australia. This gauge has the gasoline takeoff line built into the gauge. Drawing #28902. I am purchasing one for my 1922 Model 10-A. He is allowing me to purchase several extra for resale in the USA. My delivered cost is equivalent to his; \$295. I expect to ship starting June 1st. The insert length that I am purchasing is 11-inch. He also makes longer insert lengths at the same cost.

The face plate photo on the left is for a Franklin. The face plate photo on the right (and the gauge photo) is for a Hupmobile

Terms and Conditions:

- a) Gauges may be returned for a full refund minus my initial shipping cost to you. Approximately \$15.00
- b) I take PayPal, but will accept payment by personal check. If PayPal payment is made there will be an additional cost of \$12.00 to cover the fee that PayPal charges me.
