

Series 9 Franklin owners: last year I solicited orders for modern replacement Series 9 Camshaft Gears - Drawing #23018.

Using the 2025 H.H. Franklin Club Car Register and Membership Directory for Series 9, I found 19 "A" and 93 "B" owners. Of those, 44 emails addresses were listed, to which I sent my proposal for new gear requests.

Based on the response received, I ordered 20 Camshaft gears along with 5 Series 9A and 15 Series 9B Crankshaft Gears.

All Series 9 gear sets are sold! I am soliciting orders for another production run of at least 10 sets of 9B Camshaft and Crankshaft Gears...However; that is a minimum goal! The more sets ordered, the less expensive the final cost will be!

Please let me know at my email/phone number - both listed in the Club's Membership Directory - if you're interested... and even if you don't own a Series 9 car, let others who do know about this Gear project please!

I would like to order a new production run by September 15th!

Semper Fidelis, Mike McCarthy
